

VOCABULARY PROJECT – CHAPTER 5 – 30 points

Your job is to write and perform a scene of a soap opera. The basic plot of your scene is listed below. After your scene number is listed the section number from the book. In your scene you may introduce characters and APPROPRIATE situations using the vocabulary and main ideas from your section. Remember you need to use the vocabulary as it means in math. In other words you can't name a dog triangle and have him running around doing dog things, he would need to always turn 180 times before laying down, or only have three legs, etc. You may also include props that have math meaning (this does not mean having a parabola on the wall and think that you don't have to mention it). Your scene can use other class members than those in your group, and all of your group members need not perform (just make sure that they were working on the script – typing, etc).

A final copy of your script is due immediately after your performance. You must use all vocabulary/main ideas from your section. They need to be underlined in RED.

AS THE PARABOLA OPENS

Scene 1 (section 5.1): Mr. Para Bola and Miss. Parab LA meet for the first time.

Scene 2 (section 5.2): Mr. Para Bola and Miss Parab LA get married but the wedding gets interrupted and they don't marry.

Scene 3 (section 5.3): Miss Parab LA is kidnapped by evil Dr. FacTor and is taken to his hidden tropical island.

Scene 4: (section 5.4): Miss Parab LA is rescued by C.T. Square, a private detective hired by Mr. Para Bola. A love triangle forms.

Scene 5 (section 5.5): Miss Parab LA and C.T. Square attend an opera and Mr. Para Bola catches them.

Scene 6 (section 5.6): Mr. Para Bola starts dating his ex-girlfriend ComPlex and both couples go to the same restaurant and try to make each other jealous.

Scene 7 (section 5.8): Miss Parab LA walks through park and reminisces of olden days with Mr. Para Bola. She realizes she wants Mr. Para Bola more than C.T. Square so she finds him and they live happily ever after.
